## EXPERIENCE

---

### IBM

#### Application Consultant

Jan 2020 – Present

Karachi, Pakistan

- Collaborated with clients, employing hands-on development work, and provided expert guidance on application development strategies, ensuring project success, client satisfaction, and delivering high-quality solutions.
- Mentored a technical consultant team, fostering strong client relationships, and actively contributed to project delivery through ongoing development awareness and seamless collaboration for integrated solutions aligned with client needs.

#### Application Developer - Web Technologies

Apr 2019 – Dec 2019

Karachi, Pakistan

- Applied expertise in translating IT requirements to design, develop, and assemble components, creating custom information systems.
- Delivered functional and technical designs, models, code, unit tests, and documentation as part of routine tasks in developing custom information systems.

#### Brighter Blue Graduate

Jul 2018 – Mar 2019

Karachi, Pakistan

- Completed intensive week-long IBM Global Business Consultancy training.
- Volunteered as a versatile Full-stack developer for the Blockchain team across diverse projects, actively collaborating and proactively resolving bugs in IBM's internal management software.

## PROJECTS

---

### Rewards App, Consumer Industry - UAE

- Played a pivotal role in developing the Loyalty App's microservice layer, completing more than 10 user stories.
- Earned recognition for impactful contributions, receiving acknowledgment from both clients and esteemed IBM partners.

### Digital Wallet App, Telecom Industry - PK

- Designed business logic for four major use cases in the newly revamped digital wallet, leading to enhanced performance satisfaction and a significant reduction in Payoneer auditing issues from 2 million to a few thousand.
- Headed the service orchestration team for Jazz Chatbot, driving the development of new business logic for emerging use cases and identifying bugs in a pre-production environment.

### Optimal Product Quantity, FMCG (Consumer Packaged Goods) - CH

- Led the development of the front end using Azure Stack, Azure Functions, and React App, enhancing user experience and visual appeal.
- Engaged in client meetings, ensuring alignment with project goals and delivering a solution that resulted in significant cost savings and streamlined inventory management processes.

### Project Aber, Government Industry - KSA

- Collaborated to develop a full-stack application for Project Aber - Joint Digital Currency and Distributed Ledger. (NodeJS, React, Postgres)

### Municipality Blockchain Application, Government Industry - KSA

- Led the development team to build a Blockchain-based dashboard for Saudi Arabia's Municipality authority; Resulting in the first blockchain application deployed in the MEA Region by IBM (NodeJS, Angular, Postgres)
